

# Are You Concerned About Under-Age Young People Obtaining Alcohol or Solvents Near You?

The selling of age restricted products to under-age users can have a huge, often negative impact on your local area. It is sometimes hard to know who to contact if you have worries or suspicions relating to this.

If you have **any** information relating to underage sales, then call Lisa Amphlett, Community Safety Officer. Lisa has been appointed within Trading Standards to reduce the levels of misuse of **alcohol and solvents** in Stafford, Cannock and South Staffordshire. As well as arranging test purchasing, Lisa can provide free training and advice visits for the shops in question and work with young people and the communities affected by underage sales. All information is welcomed.

Contact Lisa on 01785 277836 or
